

THE SUCCESS OF A PROJECT IS BASED ON COMMUNICATION

PLAN

CONNECT

IMPROVE

KYP Project communicates, informs and offers easy access to the correct project information. It's a user-friendly tool and provides up-to-date information about the progress of the project schedule. With KYP Project you know what to expect, when it will happen and what is needed. KYP Project communicates expectations, records progress and reports results. Let KYP Project help and inform you!

Easy to use
on PC, tablet & smartphone

JUST 3 EASY STEPS TO GET YOU STARTED

Registration

Visit www.kypproject.com to and create your own account through the registration/login button. It takes less than a minute to create your account. When logging in for the first time, KYP Project will ask you to create or join your own company. Then, in your project overview you'll find one or more tasks which are invites to give you access to the schedule. Accept the invites and open a task. Congratulations, you are in!

Information

Every task shows you eight buttons which provides different kind of information about the task. The big number in the middle indicates the number of working days left until your task starts. When the task has started it indicates the number of working days till the end of your task. You're able to see the entire schedule and open the documents that are attached to your task. In other words: all the project intel available, wherever you are.

Communication

Send messages to the project managers and check off your post-its daily via the app. Every check is instantly visible in the project schedule. This means that you, and all other parties, can see what the current state is of every task in the project schedule. It's even possible to create a personal schedule which only shows all your tasks in the different projects in one schedule. Go try it out!
